

SUPPLEMENTARY INSTRUCTIONS

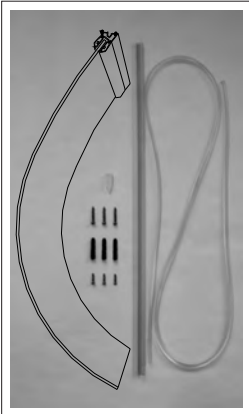

KUDOS WALK-IN ENCLOSURE

for use WITHOUT Aqualisa Quartz Shower System

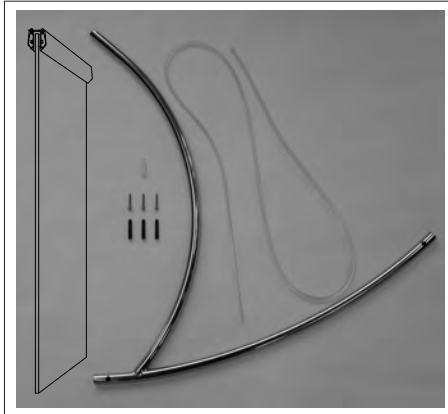

Please read these instructions in conjunction with the main installation instructions if you are installing this enclosure WITHOUT the Aqualisa Quartz Shower System

PACK CONTENTS

Please ensure that you have the correct packs and all the necessary components before starting your installation.

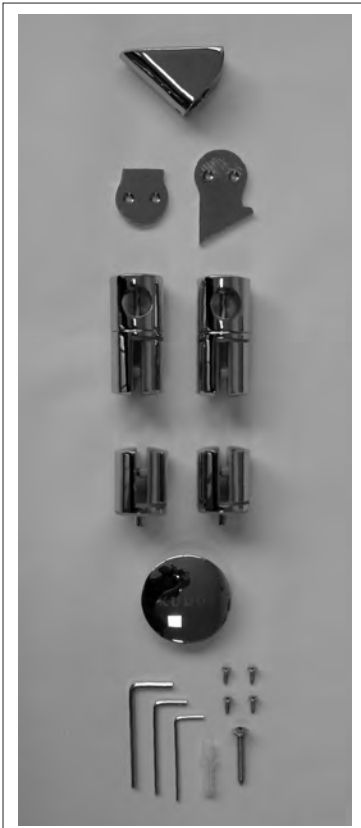

PACK K - 1400 tray
PACK S - 1700 tray
CURVED GLASS PANEL

PACK B - 1400 tray
PACK R - 1700 tray
SIDE GLASS PANEL

PACK L
1400 & 1700 trays
RECESS COMPONENT KIT

PACK M
1400 & 1700 trays
CORNER COMPONENT KIT

INSTALLATION

Refer to stages 13-29 of the main installation instructions. Please ignore all stages which refer to the Aqualisa Shower System and Water Delivery Column.

TRAY COVER CAP

Remove protective paper film from gasket on underside of cover cap and insert into 35mm diameter hole in tray, pressing firmly down to achieve a watertight seal.

IMPORTANT

*The KUDOS WALK-IN range has been specially designed around the glass-mounted KUDOS shower column, providing water delivery which is directed away from the opening via the integrated AQUALISA digital shower system. KUDOS Walk-Ins are also available without the shower valves for use with other shower valves traditionally sited within the enclosure, however, as with most walk-in enclosures, **positioning and direction of the shower-head** and water pressure can lead to some water escaping from within the enclosure.*
